Once the maximum is reached. The CSIR CIMAP Lucknow may consider termination of the Contract.

24. **Applicable Law :-**The contract shall be governed by the Law of Contract for the time being in force Irrespective of the place of delivery, the place of performance or place of payment under the contract, the contract shall be deemed to have been made at the place from which the acceptance of tender has been issued i.e. CSIR CIMAP Lucknow. The place of the jurisdiction will be Lucknow Uttar Pradesh, India

25. **DISPUTE SETTLEMENT:** The Purchaser and the Supplier shall make every effort to resolve amicably by direct informal negotiation any disagreement or dispute arising between them under or in connection with the Contract.

If, after twenty-one (21) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the Purchaser or the Supplier may give notice to the other party of its intention to commence arbitration, as hereinafter provided, as to the matter in dispute, and no arbitration in respect of this matter may be commenced unless such notice is given. Any dispute or difference in respect of which a notice of intention to commence arbitration has been given in accordance with this Clause shall be finally settled by arbitration. Arbitration may be commenced prior to or after delivery of the Goods under the Contract.

The dispute settlement mechanism/arbitration proceedings shall be concluded as under:

- a. In case of Dispute or difference arising between the Purchaser and a domestic supplier relating to any matter arising out of or connected with this agreement, such disputes or difference shall be settled in accordance with the Indian Arbitration & Conciliation Act, 1996, the rules there under and any statutory modifications or re-enactments thereof shall apply to the arbitration proceedings. The dispute shall be referred to the Director General, Council of Scientific & Industrial Research and if he is unable to unwilling to act, to the sole arbitration of some other person appointed by his willing to act as such Arbitrator. The award of the arbitrator so appointed shall be final, conclusive and binding on all parties to this order.
- (b) In the case of a dispute between the Purchase and a Foreign supplier, the dispute shall be settled by arbitration in accordance with provision of sub-clause (a) above. But if this is not acceptable to the supplier then the dispute shall be settled in accordance with provisions of UNCITRAL (United Nations Commission on International Trade Law) Arbitration Rules.

The venue of the arbitration shall be the place from where the purchase order or contract is issued.

Notwithstanding any reference to arbitration herein,

The parties shall continue to perform their respective obligations under the contract unless they otherwise agree.

26. **FRAUD AND CORRUPTION**

The purchaser requires that bidders, suppliers, contractors and consultants, if any, observe the highest standard of ethics during the procurement and execution of such contracts. In pursuit of this policy,

i. The terms set forth below are defined as follows:

1. **“Corrupt practice”** means the offering, giving, receiving, or soliciting, directly or in directly, of anything of value to influence the action of a public official in the procurement process or in contract execution;
 2. **“Fraudulent practice”** means a misrepresentation or omission of facts in order to influence a procurement process or the execution of a contract;
 3. **“Collusive practice”** means a scheme or arrangement between two or more bidders, with or without the knowledge of the Borrower, designed to establish bid prices at artificial, noncompetitive levels; and
 4. **“Coercive practice”** means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the procurement process or affect the execution of a contract;
- ii. The purchaser will reject a proposal for award if it determines that the Bidder recommended for award has, directly or through an agent, engaged in corrupt, fraudulent, collusive or coercive practices in competing for the Contract in question;

27. **If there is contradiction in place of Delivery, Insurance, warranty etc between terms & conditions and Schedule of requirement (Annexure II) /Technical specifications (Annexure VI). Then the details mentioned in later (Schedule of requirement/Technical specifications) will prevail.**

Technical Specification of Digital PCR System

A digital PCR system is a third generation PCR technology to amplify a single DNA template into large number of separate reaction chambers called partitions (maybe million) with the help of nanofluidics. Each partition act as an individual reaction and is exposed to a standard PCR and can be detected with different fluorophores or TAQMAN chemistries to discriminate different alleles (e.g. wild type/ mutant), scored as positive or negative. The ratio between positive partitions and all counted partitions is used in the calculation of initial target concentration by the use of Poisson distribution. Quantification of the mean number of target sequences per partition is achieved by applying a Poisson correction to the fraction of the positive partitions. Digital PCR transforms the conventional PCR exponential analogue signals into liner digital signals allowing the statistical analysis of the PCR product.

Digital PCR System: General

1. A single party must provide all the component and should be a single workflow.
2. System should comply with digital MIQE guidelines.
3. System should provide an absolute measure of target nucleic acid molecule with high precision, specificity and sensitivity without the use of reference genes as well as standard curves.
4. The system should have electronic display and sufficient memory to store the action performed in past for reproducibility of an assay.
5. The system should support both Taqman probe and SYBR/Evagreen dye chemistry. System should support multiplexing experiment with probe base as well as dye base chemistry.

Partition Generator (Chip based or droplet based partitioning)

6. Reaction volume should not be more than 25 ul.
7. Partitions per reactions should be at least 20,000 or more
8. Each partition volume should be 0.5-1.5nl.

Plate Sealer

9. Should be compact(lowest footprint), user friendly
10. Temperature range of 80-190 °C
11. Heat time not more than 5 mins

Thermal Cycler

12. Deep well thermo block for 96 samples
13. Must be gradient with gradient temperature range 30-99 °C
14. Block Temperature accuracy: $\pm 0.25^{\circ}\text{C}$
15. Block Temperature Homogeneity: $\pm 0.4^{\circ}\text{C}$
16. Maximum Block Ramp rate: atleast $3^{\circ}\text{C}/\text{sec}$
17. Number of programs on the device atleast 1000

Partition Reader

18. Two colour fluorescent partition reader capable of reading 96 samples at one time(per run) and a suitable compatible software.
19. System should be capable of analysing 1-96 samples in one go
20. System should offer precision of $\pm 10\%$ or more
21. System should have a linear dynamic range of five orders of magnitudes for detection of input samples.
22. System should be able to detect and quantify as low as one copy of target sequence.
23. System should use two light emitting diode for illumination and differentially detect emission using two filter multipixel photon counter/CMOS
24. The reader should be able to detect atleast two colors from a single partition.
25. The reader must be sensitive to detect fluorescence from amplification of a single target molecule.

Software for Reader

26. Should provide fraction of positive and negative droplets for each samples to fit a Poisson distribution to absolute copy number of target DNA.
27. Should have the ability to count the number of partitions for each sample after every run and should give concentration analysis for each sample
28. Should have copy number variation gene expression absolute quantification and rare event analysis modes.
29. System should be capable of absolute quantification of nucleic acids in the samples without standards. The machine should be able to detect a single copy of the target in the sample.
30. Detection of a single mutant copy in a background of a million wild type copies in a single run, using dyes, single probes or dual probes.
31. Sequence detection SNP detection copy number variation gene expression analysis single gene expression, NGS validation and library quantification.
32. Suitable software to control complete Digital PCR system in various format Viz. CSV format/Excel file format/Adobe acrobat file etc. to acquire and processing of data
33. Premade templates, customizable data reports online help and answer wizard preferably oracle embedded database, report publisher, versatility for multitasking without multiple software package
34. The software should have required regulatory compliance such as digital MIQE guidelines.
35. Software should be capable to compute the method validation parameter as per current international guidelines such as d MIQE etc.
36. Should provide the real time monitoring, automatic notification of instrument performance and diagnostic instructions for problem resolution

Computer Workstation and Power Supply

37. Suitable Branded computer/laptop system with 8 GB Ram or higher, 1 TB HDD and RWDVD Drive with licensed operating system (latest and compatible windows) having 24 inch monitor of latest technology/laptop and updated original MS office software and acrobat professional(for report reading and editing.
38. Branded multifunction duplex latest laser printer of standard quality
39. Online UPS of atleast 2KVA capacity or as per requirement of the system with minimum 01 hr battery backup at full load(Preferably of UPS /Numeric or standard brand)

Consumable Accessories

40. Necessary consumable and tools must be supplied
41. Supporting document for the claim must be submitted for the equipment
42. Bidder should quote only latest model for technical compliance along with assurance of next 10 years supply of spare parts from the date of installation
43. Bidder should provide the operational cost for at least initial 100 runs(100 samples)

Warranty:

44. Comprehensive warranty (standard one year from date of installation and commissioning)

Additional warranty of two years (price should be quoted separately)

45. Compliance: IQ at the time of installation and OPV in every year

Installation Service And General Condition

46. User List: Should provide information of recent installations of quoted Digital PCR system along with similar application
47. On site Training and Demonstration: Operational training and demonstration programme with the application of rare mutation detection and copy number variation to be conducted at CSIR-CIMAP Lucknow
48. Bidder should provide all pre –installation requirement of the system
